ABOUT ME

Software Engineer graduate with expertise in Frontend Development, UI/UX Design, and modern JavaScript frameworks. Proficient in building responsive and interactive web applications using React.js, JavaScript, and CSS. Passionate about creating intuitive user interfaces, enhancing user experiences, and implementing scalable web solutions.

SKILLS

- Programming Languages:** HTML, CSS, JavaScript, TypeScript, React.js, jQuery,
- Core Concepts:** Responsive Web Design, UI/UX, State Management, Performance Optimization
- Tools & Platforms:** Git, GitHub, VS Code, Figma,

EDUCATION

Quaid-e-Awam University of Engineering Science and Technology

Nawabshah, Sindh

Bachelor of Computer Systems Engineering | Dec 2020 – Dec 2024

WORK EXPERIENCE

News App (React + API)

Features:

- Fetch top headlines and articles by category
- Search functionality
- Article preview with read-more links
- Loader and error handling

Weather App (React + API)

Features:

- Get real-time weather data by location
- Use async/await or Axios for API call
- Display temperature, wind, humidity, and icons
- Search bar with city auto-suggestion

PROJECTS

Brain Stroke Detection Using Deep learning (FYDP)

- Achieved an accuracy of **85.4% on training data** and **91.7% on validation data** through our model.
- Conducted **extensive literature reviews** and research on state-of-the-art classification models for **stroke detection**.
- Demonstrated the potential of **CNNs** in accurately diagnosing strokes from **CT scan images**.
